Drupal: uma análise geral e casos de uso

Saulo Amui

saulo@bytebio.com

O que é o Drupal?

- Um Sistema de Gerenciamento de Conteúdo(CMS)
- Disponível como Software Livre (GNU GPL)
- Escrito em PHP com banco de dados SQL
- Desenvolvido e mantido por uma comunidade de milhares de usuários e desenvolvedores de todo o mundo

Missão e Valores

- Flexibilidade, simplicidade e utilidade em nosso produto;
- Trabalho em equipe, inovação e abertura em nossa comunidade;
- Modularidade, extensibilidade e manutenção em nosso código.

- Modular e extensível
- Codificação de qualidade
- Baseado em padrões
- Baixa demanda de recursos
- Código aberto
- Facilidade de uso
- Colaboração

Princípios

Por que Drupal?

- Software livre
- Realmente modular
- Estabilidade e performance
- Comunidade ativa e participativa
- Crescente expansão
- Características básicas de um CMS já inclusas
- Altamente customizável
- Boa arquitetura e API's
- Bem documentado
- Flexibilidade ...

Why?

Onde está a comunidade?

- Online e Grupos locais
- Eventos e Encontros
- Chat (IRC)
- Planet Drupal
- Community Spotlight
- Suporte Comercial (Marketplace)
- Fórum de Discussões
- Listas de Emails

Participação da Comunidade (~2007/2008)

Os primeiros passos

Dries Buytaert's

- Fundador e Mantenedor do Drupal
- Em 15 de janeiro de 2001 é Lançado o software usado por drop.org como Drupal 1.0

Drupal 1.0 (2004)

- Em 2004, é lançado o Drupal 4.5 – 300 desenvolvedores na lista de discussão por email – Drupal.org
- 10.000 downloads do Drupal 4.4 por mês;
- 13.000 usuários registrados no drupal.org;
- 1.000.000 páginas servidas por mês (2.500.000 acessos)

- 2% da web

2010/2011

- 1.000 colaboradores para o core do Drupal 7
- 10.000 + módulos
- 25.000 + colaboradores
- 1M+ usuários registrados no Drupal.org
- 5M visitas únicas/mês
- Free

Daddy knows best: Tim Berners-Lee uses Drupal

Morbus Iff - December 15, 2005 - 22:04

News and announcements

We owe a lot to **Tim Berners-Lee**, whether you know him or not. In short, he is the father of the World Wide Web and the creator of the very first web site. Recently, as part of MIT's **Decentralized Information Systems** web site, **he published his first blog entry** with honest-to-goodness "blogging tools", explaining:

"... I have had the luxury of having a web site which I have write access, and I've used tools like Amaya and Nvu which allow direct editing of web pages. With these, I haven't felt the urge to blog with blogging tools. ... That said, it is nice to have a machine [do] the administrative work ... and it is nice to edit in a mode in which you can to limited editing of the site. So I am going to try this blog thing using blog tools.

It should bring us all great pleasure to know that Tim's first experience with "blogging tools" is our own Drupal.

Get Started with Drupal

1 Download Drupal

To get started with Drupal, you'll need the Drupal base system files either as [Drupal core](#) or a [pre-built distribution](#), as well as a [web hosting provider](#).

[Download Drupal 7.10](#)

Drupal 7 is recommended for most new websites. A large number of modules and themes are already available for it.

Many Drupal sites currently run on [Drupal 6](#).

Installation Profiles

Drupal [distributions](#) (also known as installation profiles) are pre-packaged website solutions for specific use cases. They include Drupal core as well as additional modules. More Drupal 7 installation profiles will become available in the near future.

2 Extend Drupal

Download hundreds of modules to customize and extend your site.

Most popular modules

[Download & Extend Home](#)[Drupal Core](#)[Modules](#)[Themes](#)[Translations](#)[Installation Profiles](#)[View](#)[Version control](#)

Posted by [Drupal](#) on *September 28, 2003 at 4:31pm*

Get started by downloading the official Drupal core files. These official releases come bundled with a variety of modules and themes to give you a good starting point to help build your site. Drupal core includes basic community features like blogging, forums, and contact forms, and can be easily extended by downloading other contributed modules and themes.

Before installing Drupal, please review the [system requirements](#) and the [Installation Guide](#).

[Information on version numbers](#) can be found in the [online documentation](#).

Following Drupal core development

For announcements of major initiatives and opportunities to contribute, please follow the [Core announcements group](#) ([RSS feed](#), [@drupalcore](#) on twitter.).

For announcements specifically around Drupal 8, please see the [Drupal 8 Initiatives group](#) ([RSS feed](#)).

Drupal 7 note

When installing Views on Drupal 7, you absolutely must have [CTools](#) of at least alpha4 and you may need to flush cache as much as twice. **There are currently issues with core's cache flushing that means one cache flush isn't necessarily enough. Also, if your CTools' version is older than CTools 7.x-1.0-alpha4** things will crash a lot..

What is Views

The Views module provides a flexible method for Drupal site designers to control how lists and tables of content (nodes in Views 1, almost anything in Views 2) are presented. Traditionally, Drupal has hard-coded most of this, particularly in how taxonomy and tracker lists are formatted.

This tool is essentially a smart query builder that, given enough information, can build the proper query, execute it, and display the results. It has four modes, plus a special mode, and provides an impressive amount of functionality from these modes.

Among other things, Views can be used to generate reports, create summaries, and display collections of images and other content.

You need Views if

- You like the default front page view, but you find you want to sort it differently.
- You like the default taxonomy/term view, but you find you want to sort it differently; for example, alphabetically.
- You use /tracker, but you want to restrict it to posts of a certain type.
- You like the idea of the 'article' module, but it doesn't display articles the way you like.
- You want a way to display a block with the 5 most recent posts of some particular type.
- You want to provide 'unread forum posts'.
- You want a monthly archive similar to the typical Movable Type/Wordpress archives that displays a link to the in the form of "Month, YYYY (X)" where X is the number of posts that month, and displays them in a block. The links lead to a simple list of posts for that month.

Views can do a lot more than that, but those are some of the obvious uses of Views.

Dependencies

The Drupal 7 version of Views requires the [Chaos Tool Suite](#) also known as CTools.

Views' bug squad

The [Views' bug squad](#) is a group of people who have dedicated a few hours a week to help provide support and fix bugs in the issue queue. They are the first line for answering questions and properly filing issues. Anyone who wishes to join the Bug Squad to help others may do so to help contribute to the Drupal community!

AdaptiveTheme

[View](#) [Version control](#)

Posted by [Jeff Burnz](#) on July 15, 2009 at 3:56am

Adaptive.Responsive.HTML5

Adaptivetheme is a powerful theme framework with support for **mobile and tablet devices**, configurable layouts and extensible theme settings that power our range of sub-themes with more features and baked in Drupal goodies than you can poke a stick at.

[Building your own?](#) Sub-themes can be extended in any way and can support any design.

You get all this and more with Adaptivetheme:

- Lower site build and theme development costs
- More time on your content, less time on software
- Awesome support
- Intuitive theme settings
- Desktop, laptop, smartphone and tablet support (7.x-2.x)
- SEO baked in
- WCAG accessibility compliance
- HTML5, RDFa, ARIA Roles & super clean markup

Stay ahead of the Pack

Adaptivetheme keeps you out in front by leveraging the webs most sought after technologies – HTML5, CSS3, ARIA Roles, Media queries, and Drupal 7's amazing fields system – delivering an unmatched set of advanced features to support the requirements of the modern web and keep your site relevant and up to date for years to come.

Awesome Support - Guaranteed

Chances are at some point everyone needs a helping hand and because Drupal is our business we're here all day, everyday and can provide quick and helpful support. Need support right now – just [submit an issue](#) and we'll be there in a jiffy.

Mobile Inside

AT's configurable layout engine responds to the device your site is being viewed on – smartphone, tablet or standard laptops and desktops giving you instant support for the mobile web. Learn more about [customizing layouts](#) – its easy!

Search Optimized

We take SEO seriously. All layouts are content first and the enriched semantic markup is lightweight for super quick page load and rendering times. Adaptivetheme also fully supports both RDFa and ARIA Roles, further improving semantics and content findability.

Easy to Use

Get site building and theming strait away – pain staking attention to detail has improved the user experience – its not only powerful but intuitive to use which saves you time.

Get Started in Minutes

Copv and paste the included sub-theme. give vour new theme a name and vou're awav. Read up

Drupal.org Testing

[View](#) [Version control](#)

Posted by [dww](#) on March 28, 2007 at 8:36pm

This profile installs a site with the structure, content, permissions, etc of Drupal.org to facilitate the reproduction of bugs and testing of patches for the project modules. See [What theme and modules does Drupal.org use?](#) for the complete list.

Getting started

1. Install Git. [\[more info\]](#)
2. Install Drush.

```
cd ~
git clone --branch 7.x-4.x http://git.drupal.org/project/drush.git
```

3. Install Drush Make:

```
mkdir ~/.drush
cd ~/.drush/
git clone --branch 6.x-2.x http://git.drupal.org/project/drush_make.git
```

4. Enter the following to install the profile at a Drupal root of /var/www/mydrupalorg (this installs a copy of Drupal core and all necessary modules all at once):

```
drush make http://bit.ly/gOT8mp --prepare-install --working-copy
/var/www/mydrupalorg
```

(Note: could take 3 minutes or more before any output appears)

5. It's possible that apachesolr's SolrPhpClient library may have been put in the wrong location. If it's in /var/www/mydrupalorg/profiles/drupalorg_testing, move it to /var/www/mydrupalorg/profiles/drupalorg_testing/modules/apachesolr
6. Navigate to <http://localhost/mydrupalorg/> and see "Drupal.org testing profile" at the beginning.

Old stuff that almost certainly needs

At this point (6/21/2007) the profile:

- Enables the core, devel, and project modules.
- Creates users, some random content nodes and taxonomy terms.
- Generates some random forums and comments.

examples

Core drush commands

cache-clear	Clear a specific cache, or all drupal caches.
core-cli	Enter a new shell optimized for drush use.
core-cron	Run all cron hooks in all active modules for specified site.
core-rsync	Rsync the Drupal tree to/from another server using ssh.
core-status	Provides a birds-eye view of the current Drupal installation, if any.
core-topic	Read detailed documentation on a given topic.
drupal-directory	Return path to a given module/theme directory.
help	Print this help message. See `drush help help` for more options.
image-flush	Flush all derived images for a given style.
php-eval	Evaluate arbitrary php code after bootstrapping Drupal (if available).
php-script	Run php script(s).
search-index	Index the remaining search items without wiping the index.
search-reindex	Force the search index to be rebuilt.
search-status	Show how many items remain to be indexed out of the total.
self-update	Update drush to the latest version, if available.
site-alias	Print site alias records for all known site aliases and local sites.
site-install	Install Drupal along with modules/themes/configuration using the specified install

14. Poormanscron
15. Image
16. ...

Views

- Auxilia em diferentes formas de exibição dos conteúdos
 - Listas
 - Tabelas
 - Grades (grids)
 - Node
 - Views.tpl

✓ <http://drupal.org/project/views>

CCK

- Criação de tipos de conteúdos específicos
 - Faz parte do core do Drupal 7

✓ <http://drupal.org/project/cck>

Pathauto & Token

- Proporciona o uso de URLs limpas, importante para SEO
 - Token faz parte do core do Drupal 7
- ✓ <http://drupal.org/project/pathauto>
- ✓ <http://drupal.org/project/token>

Admin_menu

- Barra de menu administrativa no topo do site
 - No Drupal 7 há uma barra alternativa

✓ http://drupal.org/project/admin_menu

Filefield

- Campo para upload de arquivos
 - Use preferencialmente este módulo, ao invés do upload do core (Drupal 6)
 - Faz parte do core do Drupal 7

✓ <http://drupal.org/project/filefield>

Imagefield

- Campo para submissão de imagens
 - Faz parte do core do Drupal 7

✓ <http://drupal.org/project/imagefield>

ImageAPI

- API requerida por vários módulos de imagens
 - Necessário para o módulo “ImageCache”
 - Faz parte do core do Drupal 7
 - Efetua as configurações com a biblioteca GD2

✓ <http://drupal.org/project/imageapi>

ImageCache

- Altera e faz cache de qualquer imagem
 - Faz parte do core do Drupal 7

✓ <http://drupal.org/project/imagecache>

IMCE

- Manipulação de imagens em editores wysiwygs
 - No Drupal 7 este módulo pode ser substituído pelo “Media”

✓ <http://drupal.org/project/imce>

Date

- Campo para manipulação de datas
 - Inclui o “date_popup”

✓ <http://drupal.org/project/date>

Google Analytics

- Efetua a associação direta com o Google Analytics
 - Plug and play

✓ http://drupal.org/project/google_analytics

Webform

- Criação de formulários específicos para submissão por email
 - Rica variedade de módulos complementares

✓ <http://drupal.org/project/webform>

Poormanscron

- Gerencia o ciclo de tempo que será executado a cron
 - Recomendado para iniciantes
 - Faz parte do core do Drupal 7

✓ <http://drupal.org/project/poormanscron>

Advanced Help

- Complemento do sistema de ajuda para Views e CCK
 - Auxilia na comunicação (explicação) com o usuário

✓ http://drupal.org/project/advanced_help

CAPTCHA

- Sistema de prevenção de SPAM em submissão de formulários
 - Outra alternativa é o módulo “Mollom”, mas seu serviço é pago

✓ <http://drupal.org/project/captcha>

WYSIWYG

- Integra com as bibliotecas mais comuns de wysiwyg
 - Unifica a integração do wysiwyg para prevenir duplicação do código

✓ <http://drupal.org/project/wysiwyg>

Nodewords

- Permite adicionar meta tags em páginas, manualmente ou automaticamente
 - Utilizado para SEO

✓ <http://drupal.org/project/nodewords>

Lightbox2

- Utilizado principalmente para overlay nas imagens de uma página
 - Integração com imagens, vídeos, html e links

✓ <http://drupal.org/project/lightbox2>

CTools

- Requerido pelo módulo Panels e outros módulos importantes que fazem gerenciamento por painéis.
 - Sua API é frequentemente utilizada por desenvolvedores:
 - Plugins
 - Exportables
 - AJAX responder
 - Form tools
 - Object caching
 - Context
 - Modal dialog
 - Dependent
 - Content
 - Form wizard
 - CSS tools
- ✓ <http://drupal.org/project/ctools>

Link

- Criação de campo de link, via CCK

Link Target

☒ Default (no target attribute)

☐ Open link in window root

☐ Open link in new window

☐ Allow the user to choose

Rel Attribute

rel = "nofollow"

When output, this link will have this rel attribute. Search engines from spiders will not follow this link.

Additional CSS Class

When output, this link will have this class.

☒ Allow the user to enter a link text

Default link 'title' Attribute

title = "link"

When output, links will use this text. Read [WCAG 1.0 Guidelines](#) for more information.

validate url

http://

mailto:

internal node/add

google.com -->

http://www.google.com

✓ <http://drupal.org/project/link>

Backup and Migrate

- Gerenciamento de backups (BD) de forma simples
 - Raramente utilizado por experts

✓ http://drupal.org/project/backup_migrate

XML Sitemap

- Para otimização de buscas (SEO)

✓ <http://drupal.org/project/xmlsitemap>

Panels

- Criação e gerenciamento de páginas por painéis
 - Alternativa ao uso de blocos
 - Integrado com blocos, views, panels, context, nodes etc

✓ <http://drupal.org/project/panels>

Devel

- Excelente ferramenta para desenvolvedores e themers
 - Desabilitar em sites de produção

✓ <http://drupal.org/project/devel>

jQuery_update

- Atualiza as versões do jQuery, junto ao core do Drupal
 - É requerido por uma série de módulos que usam jQuery

✓ http://drupal.org/project/jquery_update

Content Taxonomy

- Proporciona mais opções de uso às taxonomias junto aos conteúdos
 - Select lists
 - Radio Buttons / Checkboxes
 - Autocomplete
 - Hierarchical Select
 - Taxonomy Tree
 - Multiselect

✓ http://drupal.org/project/content_taxonomy

Internationalization

- Proporciona o uso de multi-idiommas no sistema
 - Taxonomy translation
 - Multilingual variables
 - Multilingual blocks
 - Language selection

✓ <http://drupal.org/project/i18n>

Rules

- Cria regras de ações automáticas no sistema, baseado em eventos
 - Se bem utilizado, pode substituir uma série de módulos

✓ <http://drupal.org/project/rules>

Scheduler

- Executa tarefas como a publicação de conteúdos automaticamente

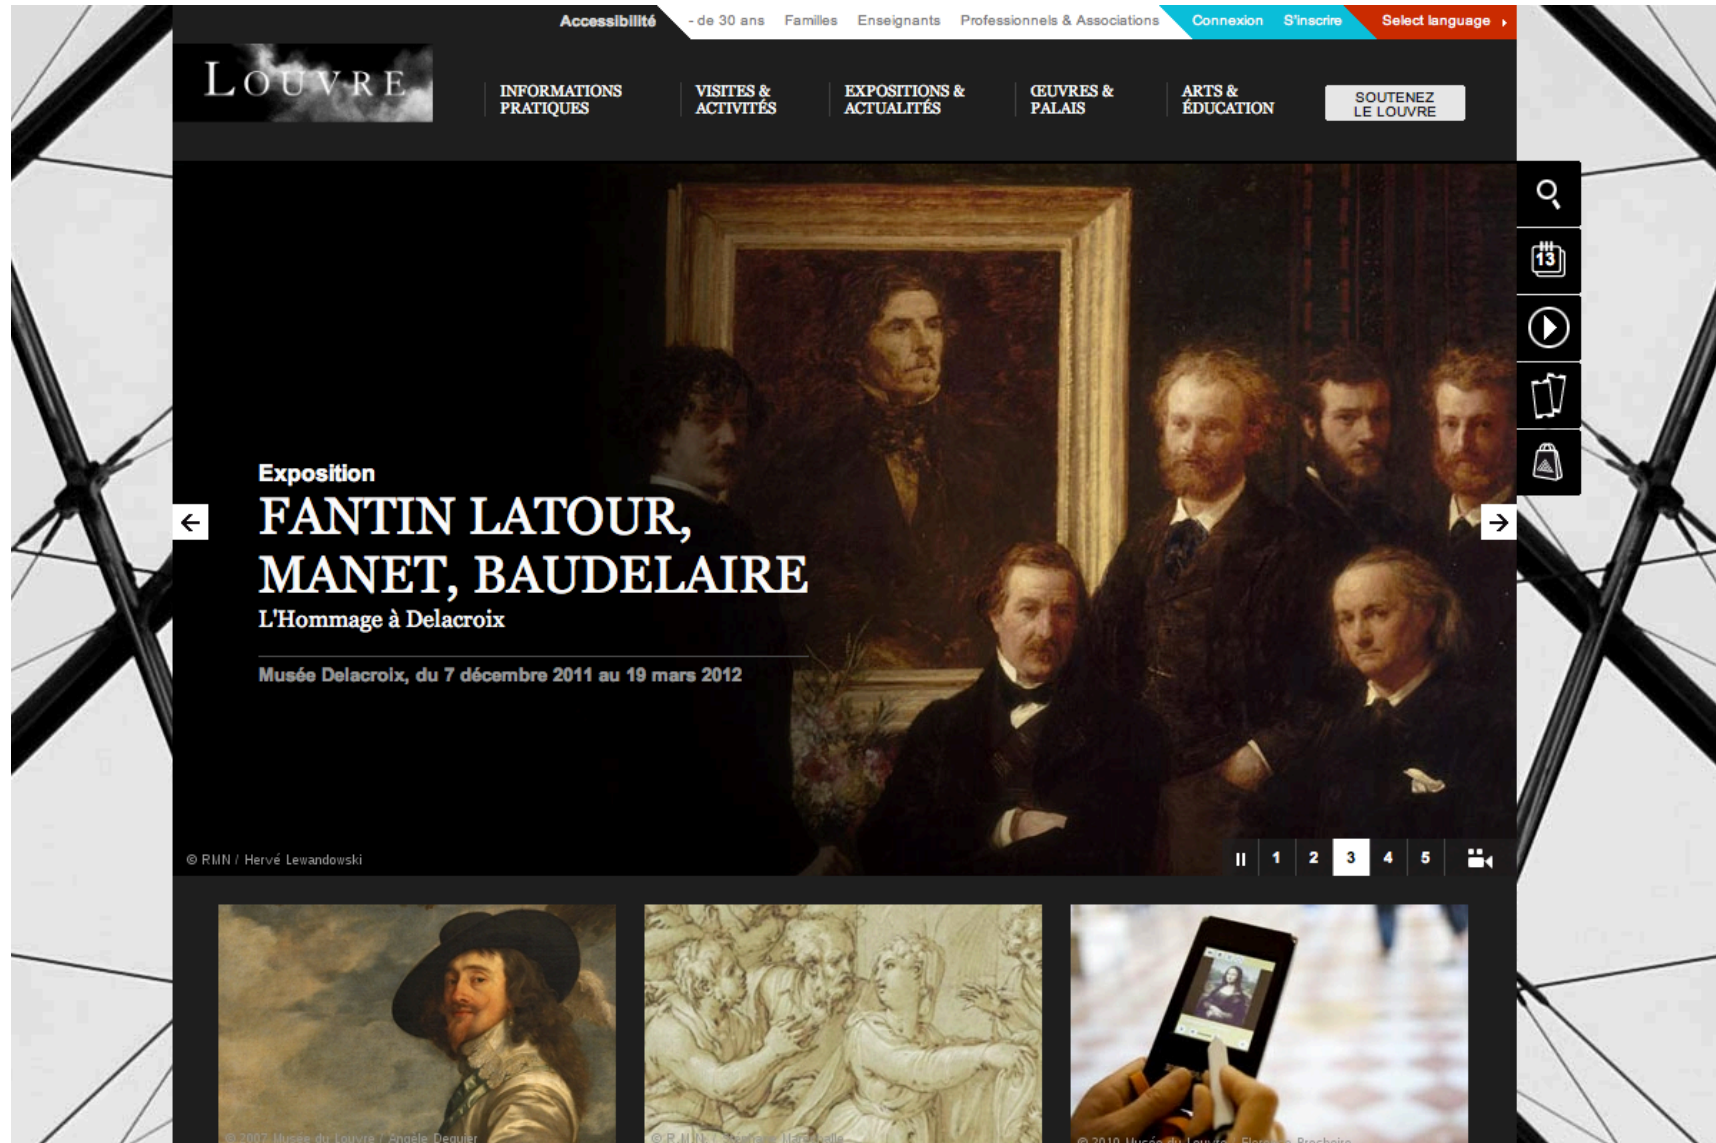

✓ <http://drupal.org/project/scheduler>

Organic Groups

- Criação de grupos e comunidades
 - Integra conteúdos e permissões de acordo com um grupo

✓ <http://drupal.org/project/og>

ECONOMY HOME

CREATING AMERICAN JOBS

REFORM & FISCAL RESPONSIBILITY

SECURITY FOR THE MIDDLE CLASS

SUPPORTING AMERICAN BUSINESSES

President Obama will not be satisfied until every American who wants work can find a job. That's why he is working to grow our economy, so middle class families feel confident in their futures and their children's futures.

Creating Jobs

President Obama's vision for the future? Billions of dollars of products sold around the world stamped: "Made in America." Here's what he has done to make that

Reform and Responsibility

The Obama Administration is committed to saving you money. We are hunting down misspent tax dollars through the Campaign to Cut Waste.

Security for the Middle Class

Getting back to pre-recession status is not enough; we've got to fully restore America's middle class

Business in America

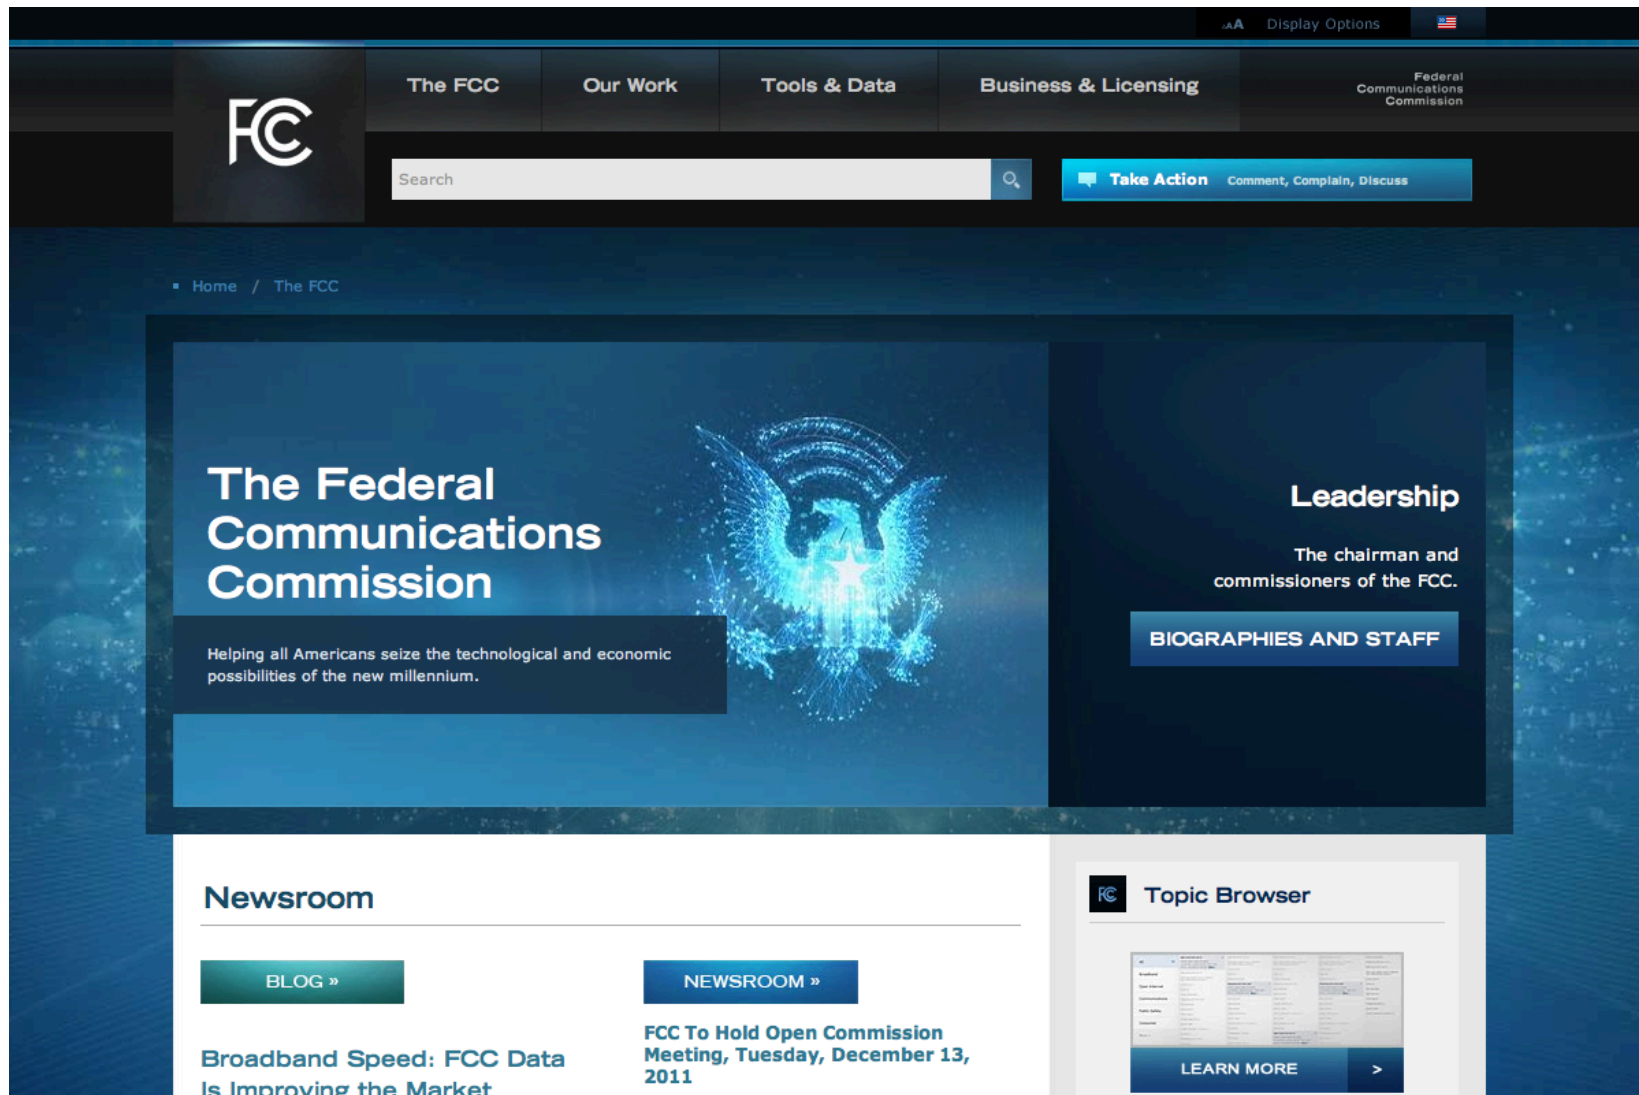

America's small businesses are essential to strengthening our national economy and President Obama is committed to helping them grow and prosper

Clinton Says Deteriorating Economy Creating 'Anxiety'

January 17, 2008

Democratic presidential candidate Hillary Clinton said the U.S. economy has replaced Iraq as the nation's top concern and the government must take quick action to avoid a lengthy recession.

BUILDING THE RECOVERY

The General Services Administration will spend \$5.55 Billion on over 250 construction projects in all 50 states, the District of Columbia, and two U.S. territories. The projects will support the President's vision for a clean energy future, create jobs, and reinvest in our public buildings.

[LEARN MORE ▶](#)

TRANSFORMING FEDERAL BUILDINGS INTO HIGH-PERFORMANCE GREEN BUILDINGS

Welcome to Recovery.gov

The American Recovery and Reinvestment Act is an unprecedented effort to jumpstart our economy, create or save millions of jobs, and put a down payment on addressing long-neglected challenges so our country can thrive in the 21st century. The Recovery and Reinvestment Act is an extraordinary response to a crisis unlike any since the Great Depression. With much at stake, the Act provides for unprecedented levels of transparency and accountability so that you will be able to know how, when, and where your tax dollars are being spent. Spearheaded by a new Recovery Board, this Act contains built-in measures to root out waste, inefficiency, and unnecessary spending. This website, Recovery.gov, will be the main vehicle to provide each and every citizen with the ability to monitor the progress of the recovery.

Recovery Act Opportunities

A large number of opportunities are becoming available as federal agencies implement the Recovery Act. You can search, monitor and review grant opportunities at

"Harnessing the Power of the Internet"

Wed, 04/15/2009 - 3:03pm — John Martin

If you thought the GOP was a political threat before today, the 300 under-attended Tea Parties should really have you shivering in your boots. It looks like the rump of the conservative movement has finally acknowledged the organizing power of the digital world-- and **now they're trying to brag about it.**

Fun With Fox...News That Is.

Mon, 04/13/2009 - 12:40pm — Suzi LeVeaux

Yesterday as I was flipping through the news channels, I stopped at Fox to listen to one of their talking heads discussing the hostage crisis. This was before Captain Phillips was rescued, and the Fox take on the situation was about what I expected. The focus of this particular commentator was on President Obama and his lack of leadership ability in ending the crisis and rescuing the captain. You get the picture.

The screenshot displays the eBay Classifieds Group website, which is built on Drupal. The layout features a central content area with a large 'Velkommen!' (Welcome!) message in a purple box. To the left of this central area, there is a vertical stack of logos for various brands: 'classifieds group', 'mobile.de', 'Kijiji', and 'Gumtree'. To the right, there are logos for 'Marktplaats.nl' and 'dba.dk'. Below the central message, there is a 'Welcome' section. The website includes a navigation bar at the top with links for 'about us', 'leadership', 'brands', 'news & events', and 'careers'. A search bar and social media icons (Facebook, LinkedIn, RSS) are also present. The footer contains three main sections: 'our team' featuring Alessandro Coppo, 'ecg buzz' with a link to a Facebook event, and 'work with us' with a link to a sales/sourcing manager. The footer also includes copyright information and a list of brand links.

Descobertas melhoram diagnóstico e terapia de Alzheimer

Enviado por luisnassif, ter, 13/12/2011 - 10:33

O futuro do tratamento da doença de Alzheimer

Por Lilian Milena, no **Brasilianas.org**
Da Agência Dinheiro Vivo

Novas descobertas sobre o funcionamento do mal de Alzheimer devem resultar nos próximos cinco anos em medicamentos mais eficientes. Pesquisas científicas também prometem melhorar o diagnóstico e até reduzir em anos o início do tratamento. E linhas de trabalho caminham para tratamentos parecidos com aqueles aplicados em portadores de diabetes do tipo 2. Sim, o Alzheimer começa a ser chamado na literatura científica de diabetes do tipo 3.

Sem insulina

Com insulina

O neurônio sem insulina sofreu perdas da sinapses depois de exposto em laboratório a oligômeros tóxicos (beta amiloide). O neurônio da esquerda foi tratado com insulina e exposto aos oligômeros, permanecendo saudável.
Fonte: UFRJ

O Alzheimer é uma doença sem cura e com medicamentos que apenas retardam sua evolução. O diagnóstico, nunca definitivo, é feito após baterias de exames e ressonância magnética, que possam provar a diminuição da função cerebral. Ainda assim, só é

Dries Buytaert

On [Drupal](#), [Acquia](#), [Mollom](#), photography, the future, etc.

Buzzr, Acquia Gardens and D7UX

Earlier this week, [Lullabot](#) showed a preview of [Buzzr](#) (previously announced as "Codename"), a hosted version of Drupal 6 with a new user interface and user experience. Interestingly enough, the new user interface has remarkable similarities with the work that [Mark Boulton](#) and [Leisa Reichelt](#) have been doing for [Drupal 7](#) (D7UX). It is my guess that the growing momentum around Mark's work encouraged Lullabot to give us a sneak preview behind the scenes of what was brewing since they first announced *Codename*. And from what I saw, Buzzr looks great!

Because the goal of Buzzr is to help make Drupal usable, some people asked me if there is a conflict with [the work of Mark Boulton and the Drupal community](#), and the work we have been doing at Acquia with [Acquia Gardens](#), which we'll build on top of the Drupal 7 usability work. I wanted to address some of these questions in this post.

First, all of us in the community have always shared a common goal. That shared goal is to make [Drupal](#) better. I think it is great when different groups of people independently arrive at a shared vision of how Drupal could become more usable. It implies that the approach embodies a lot of common sense.

Lausanne launches 2009 Students Call for Proposals

Nokia Research Center has announced they will be launching a "Students' Call for Proposals" on February 16th, 2009. In the first round, students at EPFL (Ecole Polytechnique Federale de Lausanne, Switzerland) will be able to submit ideas related to mobile applications or services with a special emphasis on social interaction. A second round will be held for students to implement their ideas on Nokia N810 Web tablets, supported by access to the Nokia Application Develop Lab on campus. The best ideas in each round will be rewarded with a recent-model Nokia device. [Read More](#)

EIGHT GOALS

LATEST NEWS

FEATURED VOICES

TAKE ACTION

WE ARE THE FIRST GENERATION THAT CAN **END POVERTY**.

WHY ME?

Every voice counts! Join the growing global movement asking governments to honor their MDG commitments.

WHY NOW?

Millions still live in extreme poverty yet the world has enough money, resources and technology to end poverty forever.

WHAT'S DIFFERENT?

The Millennium Development Goals are a unique opportunity to end poverty with achievable, timebound and locally defined targets.

END HUNGER

LATEST NEWS

UGANDA ADDS ITS VOICE TO THE "PIGA DEBE FOR WOMEN'S RIGHTS" CAMPAIGN

APR 16

On April 9, the United Nations Millennium Campaign's Africa office, in partnership with GCAP Uganda, launched a campaign dubbed "PIGA DEBE for women's rights" to fast-track the achievement of Millennium Development Goals (MDGs) three and five that are in danger of not being met by the 2015 deadline. The launch was held at Centenary Park Gardens.

We take the government to court over Heathrow

We're taking the government to court over the third runway at Heathrow, working as part of a coalition of groups that represent millions of people. NGOs, local councils and London local government bodies are all banding together to put a spanner in the works for the airport expansion plans.

[more >>](#)

Surveillance or harassment?

Reports that police have carried out the biggest pre-emptive raid on environmental campaigners in UK history don't really come as a huge surprise to me. What we are witnessing today is a massive increase in police surveillance of environmental campaigners.

[more >>](#)

[support us >>](#)

[TAKE ACTION](#)

We've bought a plot of land at the third runway site. Join us now to stop Heathrow expansion.

Taking Back Sunday Has A New Website!
 April 16, 2009 | posted by siteadmin

Taking Back Sunday has launched a [brand-new website](#) that makes the old one look like the last website they made! Not only does this site have all the latest news, photos, tour updates, diaries and more that you usually expect, but you can also become a part of the site by registering with your info. When you do, you'll be able to get your own TBS blog, add your own TBS photos and videos to the site, and more. Plus, if you sign up within the first 7 days, you'll instantly get an MP3 of the title track "New Again," from the album coming June 2nd. Stay tuned for April 20th, when the official single "Sink Into Me" is released everywhere. Keep your eyes peeled.

Ashley Tisdale Takes Over Radio & iTunes

THE GREAT TURTLE RACE STARTS TODAY - CHEER ON PEARL JAM'S TURTLE, BACKSPACER!

Eleven leatherback sea turtles are racing from foraging grounds in the frigid waters of Canada to nesting beaches on the sun-soaked shores of the Caribbean in Conservation International and National Geographic's Great Turtle Race. The turtles are tagged with state-of-the-art satellite tracking devices that allow us to follow their incredible 3,700-mile journey. Pearl Jam has sponsored a turtle who goes by the name of Backspacer.

Belgium takes over EU Council Presidency on 1 July 2010

The Presidency of the European Union Council is held by a different Member State every six months. It will be Belgium's turn at the helm of the EU in the second half of 2010.

Toward this end, our country will be cooperating closely with Spain and Hungary. Spain is set to be the President during the first half of 2010, while the honour will go to Hungary during the first six months of 2011.

Consequently, Belgium will be joining forces with these two countries to work out a joint programme to cover an 18-month period.

What can Europe do for you?

The European Union is entitled to take action in several areas. Its powers are defined by treaties. Against the background of these powers, Europe constantly strives to conduct the most efficient policy and to be as close to the citizen as possible.

[Read more >](#)

What does the Presidency involve? What will Belgium be able to do?

Every six months a different Member State takes over the EU Council Presidency. Starting from July 2010 it will be Belgium's turn. During this Presidency Belgium will therefore be called upon to play a key role in organizing and stimulating European activities.

[Read more >](#)

How will Belgium organize itself?

Bit.Trip Beat: An Inside Type of Look

February 9, 2009 - 6:21pm

As many of the readers probably know, and others most certainly won't, I am a retro gamer. This is not due to any sophisticated reasoning such as, I collect old game systems and have ventured to become an expert on the development and evolution of strategy games, or, that I generally enjoy the beep-boop noises the old games make. I do tend to like the beep-boop sounds, but the origins of my retro gaming affinity happens to come out of the fact that since my original Atari 7800 circa 1986, the Nintendo Wii is the only game system I have owned. I still have my Atari, in good working order with a good handful of games, and from time to time I like to dust it off, plug it in and play some of those great old strategy games. Sadly though, there doesn't seem to be anything out there now that rivals a good old retro strategy game made up of lines and dots and increasingly challenging levels that eventually drive you mad with the compelling desire to get that perfect score. That is, there has been nothing like that until now.
